

W3 What Money Can('t) Buy

● Enter a shop you've never seen before! Here you can buy things you won't find anywhere else. Imagine you have 2,500 Euros to spend. What would you buy with this money from the shop?

| | | |
|-----------------------------------|------------------------|------------------------------------|
| friendship/friends 1,200 Euros | youth 500 Euros | a lovely husband/wife 800 Euros |
| beauty 800 Euros | peace 1,200 Euros | a kid 700 Euros |
| happiness 900 Euros | a good job 1,200 Euros | wealth/money 1,000 Euros |
| success 600 Euros | love 1,200 Euros | fame 600 Euros |
| | health 1,000 Euros | |

● Write down your "shopping list" here:

● Is there more you want to buy? Maybe some pupils in your class have got some money left and you can ask them for it – but you have to give them something in return! For example you can say to your partner: "If you give me 200 Euros, I will give you half of my happiness." Can you make the deal? Or does your partner want something else? Make a list of all the people you talk to, what you get from them and what you give them. What is left in the end for you?

● Now pick the "purchase" which is most important for you and write a short text about it. Arrange your ideas the way you like; maybe you can use expressions and words that have to do with money? Hang up your texts in class afterwards! Is there anything a lot of pupils find most important? Or did you choose different things?

My choice:
